DenseLight.com

Our Mission

To be a global leader in providing innovative integrated photonics solutions that enable our customers to excel and win in the Sensing & Data Communications markets.

In house Wafer-fab

65+ Patents

Singapore home grown

Serving Globally

DenseLight specializes in providing end-to-end integrated photonics solutions for the global Photonics & Data Centre markets. Our solutions include design and simulation, epitaxial growth, wafer fabrication, chip production, in-line optical coating, sub-mounting, photonic measurements and product tests and screening. This is accomplished in DenseLight with our state-of-the-art Indium Phosphide (InP) and Gallium Arsenide (GaAs) wafer epitaxial growth and fabrication cleanroom, together with high precision photonics assembly and test facilities.

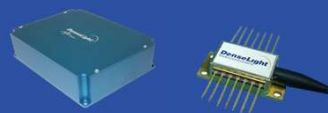

ATA GLANCE

Founded: 2000
 Location: Singapore, China
 Sector: Technology
 Industry: Optoelectronics
 Markets: Sensing, Datacom & Telecom

- Applications:
- Sensing
 - Test & Measurement
 - Structural Health
 - LIDAR
 - Medical & Healthcare
 - Guidance & Navigation
 - Distributed Acoustic Sensing
 - Datacom
 - 5G
 - Silicon Photonics
 - PIC Transceivers

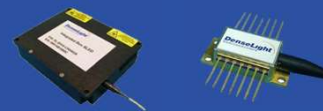

DenseLight's Capabilities.

Narrow Linewidth Laser.

SLEDs

Our Products

ELEDs

DFB & FP Lasers.

Powering Your Future Through Light
